

PERIODIC INSPECTIONS IN E-MOBILITY

SAFE COMMISSIONING, RELIABLE OPERATION

The electric mobility sector is growing rapidly. This places increasing demands on the availability, safety and legally compliant operation of charging infrastructure.

With our services, we support operators of AC and DC charging stations throughout the entire lifecycle of their installations. From periodic inspections and maintenance measures to repairs, we ensure the reliable, safe and cost-effective operation of your charging infrastructure.

Our services:

- MAINTENANCE & INSPECTION
- ATEX EXPLOSION PREVENTION
- IN ACCORDANCE WITH ISO 9001
- MAINTENANCE AFTER MANUFACTURER'S STANDARDS
- EMV-EXAMINATION
- FIRE-PREVENTION
- DGUV V3-MAINTENANCE, CHARGESCAN
- RISK ASSESSMENTS
- ENERGY SYSTEM PRODUCTS

We are certified repairers of AC- and DC-charging points that comply with the calibration law in accordance with section 54 of the measurement and calibration regulations.

Your advantages:

LEGAL COMPLIANCE
Reliable operation in accordance with the Charging Station Ordinance. [LSV]

RISK MINIMISATION
Identify errors fast to prevent further consequences.

PROFITABILITY
Greater efficiency. Fewer unplanned costs.

HIGH QUALITY
Proven performance of the highest standard.

RELIABILITY
Safe operation with high degrees of availability.

FUTURE-PROOF
Invest today. Profit tomorrow.
